 - iii.) This office letter vide memo no 187/W-153(CP-1)/JICA/PMU/2013 dated 22/01/2024 of Executive Engineer-II(Civil), PMU, WBPWSP(P), PHE Dte
 - iv.) Agreement No 01 of 2021-2022 of the Project Director, PMU, WBPWSP (P), PHE Dte

Please find enclosed herewith a letter which is self-explanatory vide reference 1st cited above. Now I have been directed to share with your good office about the following facts:-

With reference to our earlier correspondence, we would like to bring your kind notice that the entrusted contractor NCC Ltd executing 1000mm dia MS pipeline laying work at Sasangara Village during night time as there is vehicle movement problem during execution of works, which was communicated to our office vide their letter 2nd cited above. The execution works were going smoothly after intervention your good police station on the basis of our earlier communication vide letter 3rd cited above.

Further, during the night execution works on yesterday ie on 2nd February nearly 9PM around 30 peoples led by Mr Amit Mondal, S/O Sri Krishnapada Mondal, village- Porashya, came to laying work site at Sashangora village and forcefully stopped the work.

In continuation to the night incident, today ie on 3rd February 2024 morning around 10AM, Mr. Amit Mondal and his team came to Intake fabrication site forcefully stopped the works & didn't allowed to our site Engineers for videography. We have immediately communicated with SDO, Manbazar & Local Administration over telephone and then Police reached at site & tried their level best to start the work, but after leaving of Police around 2-30 PM they again threatened workers not to start the work otherwise they will block the Road & will see them how they survive (this information came to us through Mr K Annadoorai, Project Manger, NCCL & our site Engineers) & they left the site. After that Mr. Raghu, Sr GM, NCCL reached at site around 5PM and then Mr Amit Mondal's team again reached intake site & threatened all to stop the work (Mr Raghu informed us over telephone). This is a pure case of forceful obstruction for execution of Government Works and must be treated seriously.

In this regard, as informed earlier, we once again would like to mention that due to these frequent interruptions, the available execution gangs at site are not willing to continue the work (reported by NCCL). Some photographs are enclosed herewith for your ready reference.

Since it is time bound project you are requested to deal the matter strongly so that the hassle free work can be resumed by tomorrow.
